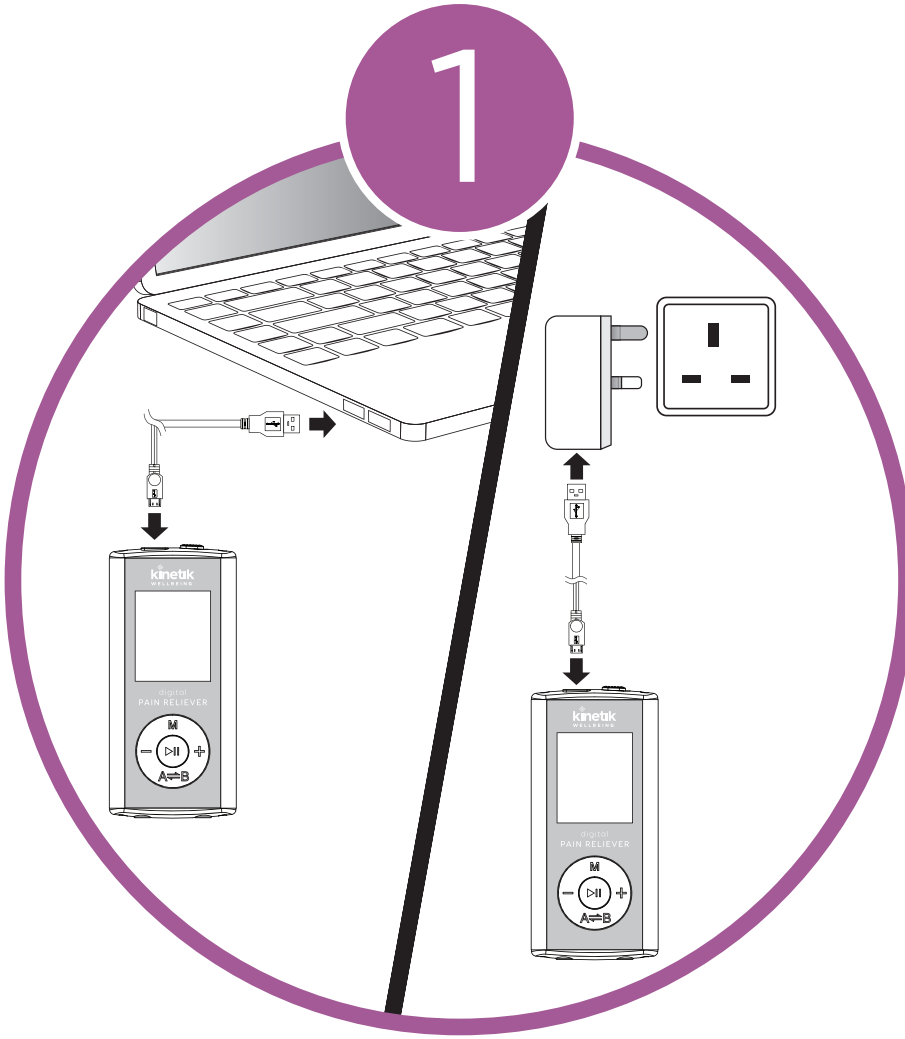
St John Ambulance

kinetik WELLBEING

-Quick Start Guide-

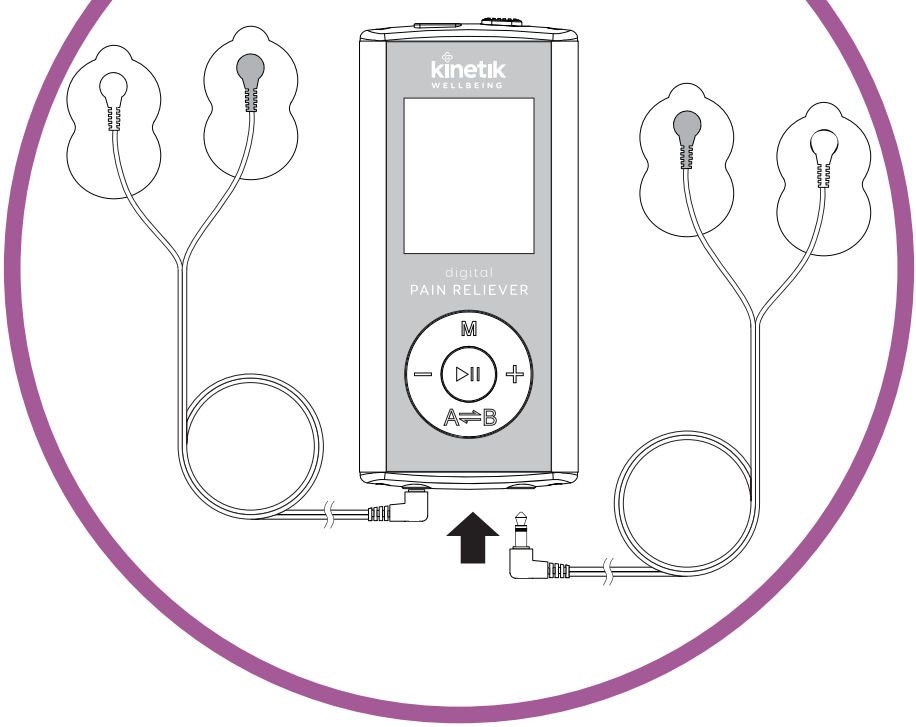
TD2

Dual-Channel TENS Pain Reliever



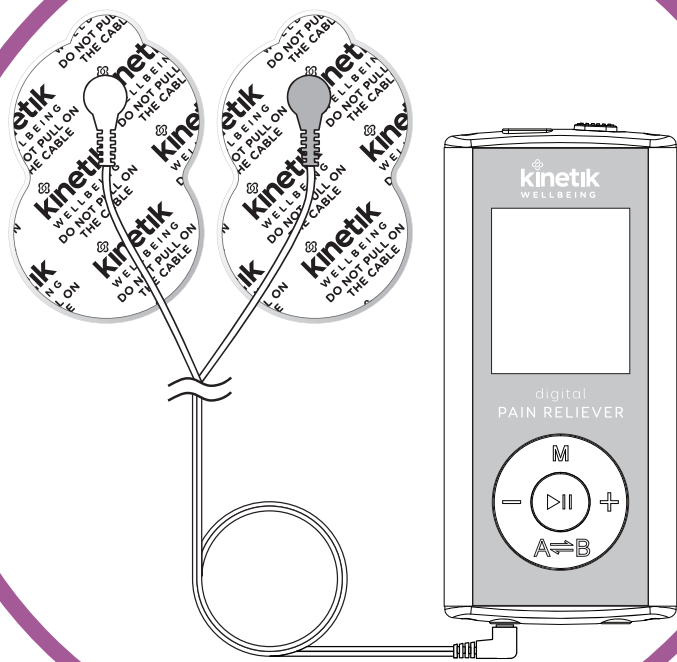
Unpack TENS device and charge via USB.

2



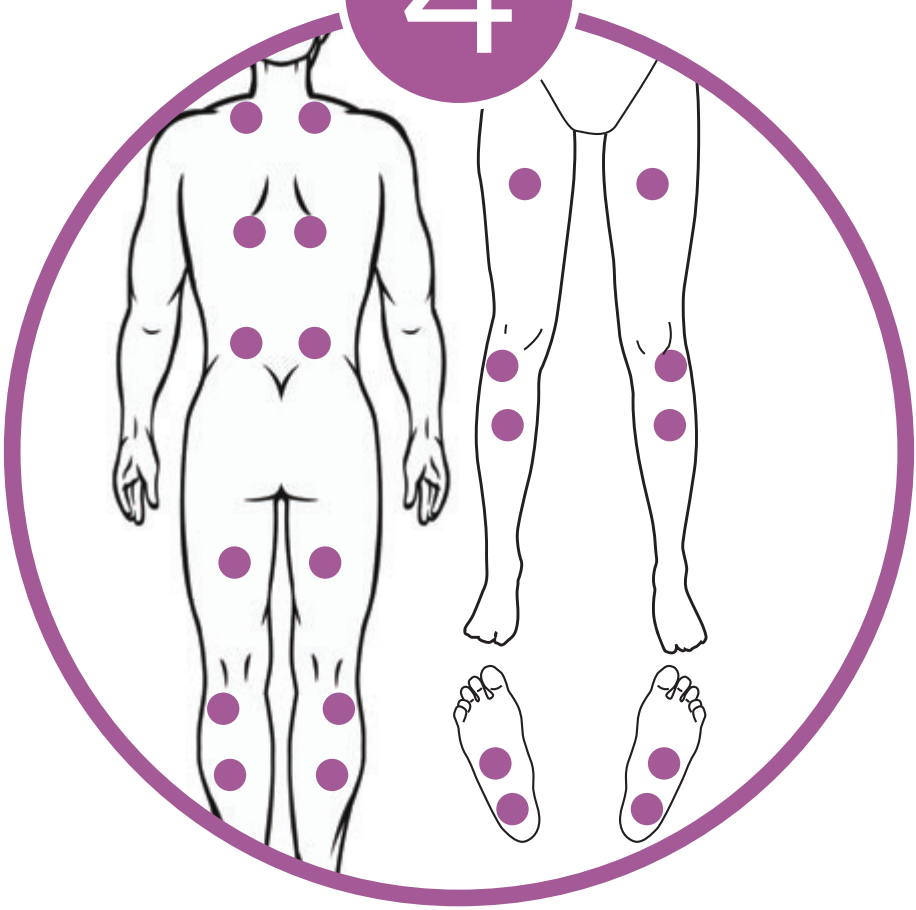
Connect output cables to Channel A or Channel B, or both.

3

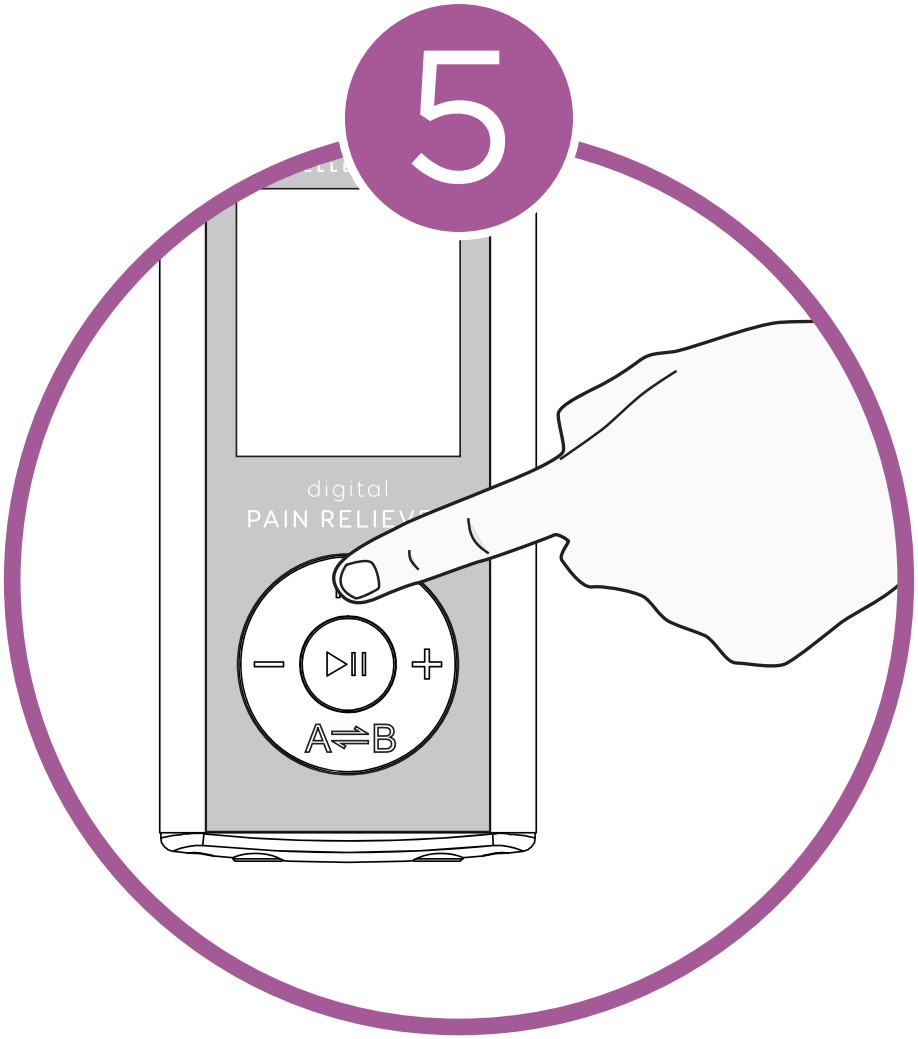


Connect
adhesive gel pads
to
output cables.

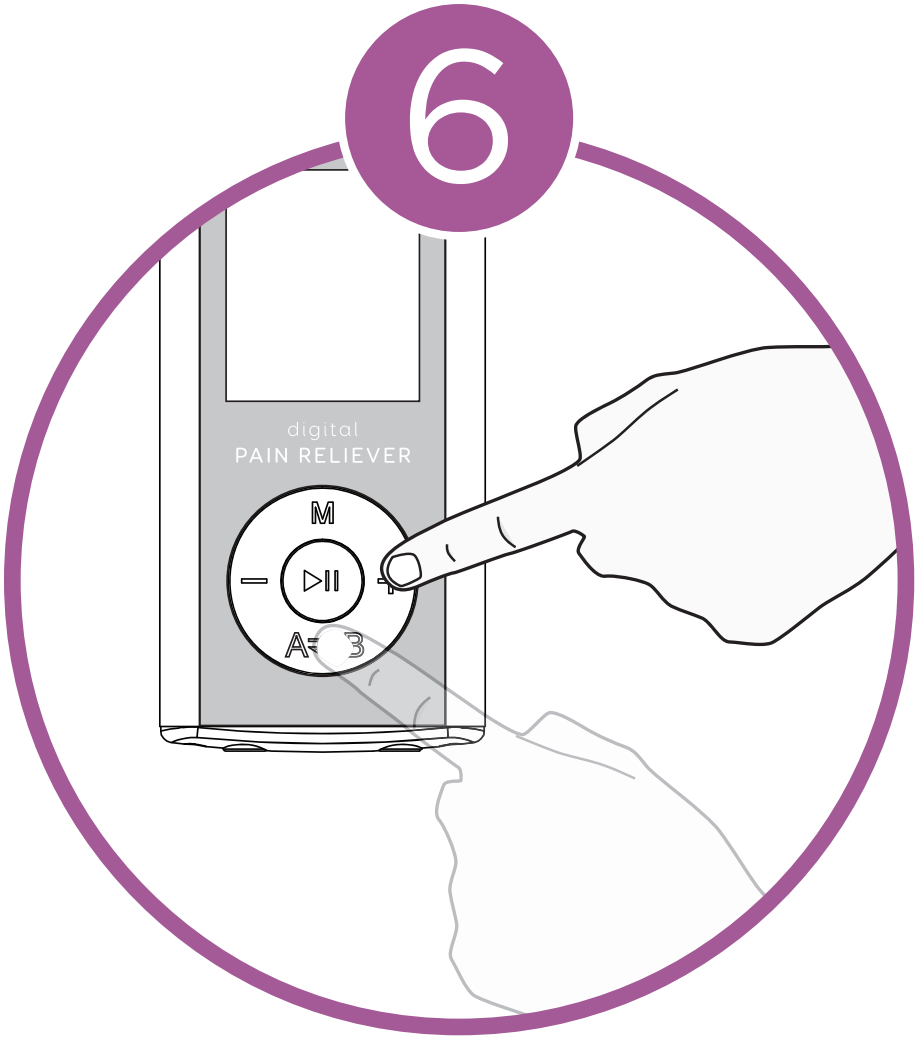
4



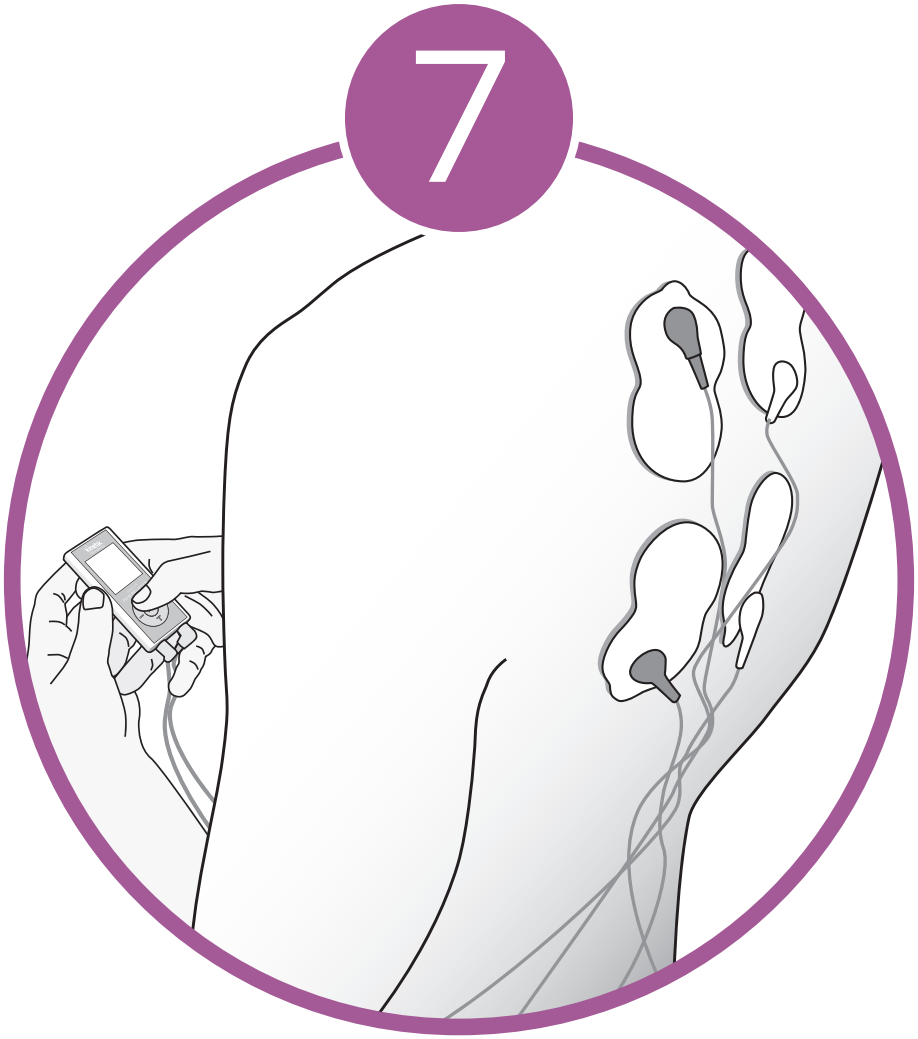
Remove protective film
and
attach gel pads
to
areas of treatment.



Select therapeutic mode. Cycle through modes by pressing the M button.



Increase intensity
as needed by pressing
the + and – buttons.
If using both channels,
the intensity can be
selected independently.
Just press A⇄B
to change channels.



When at your desired intensity, the device will automatically begin a 20 minute treatment cycle.
