# -Quick Start Guide-

## NB-222C

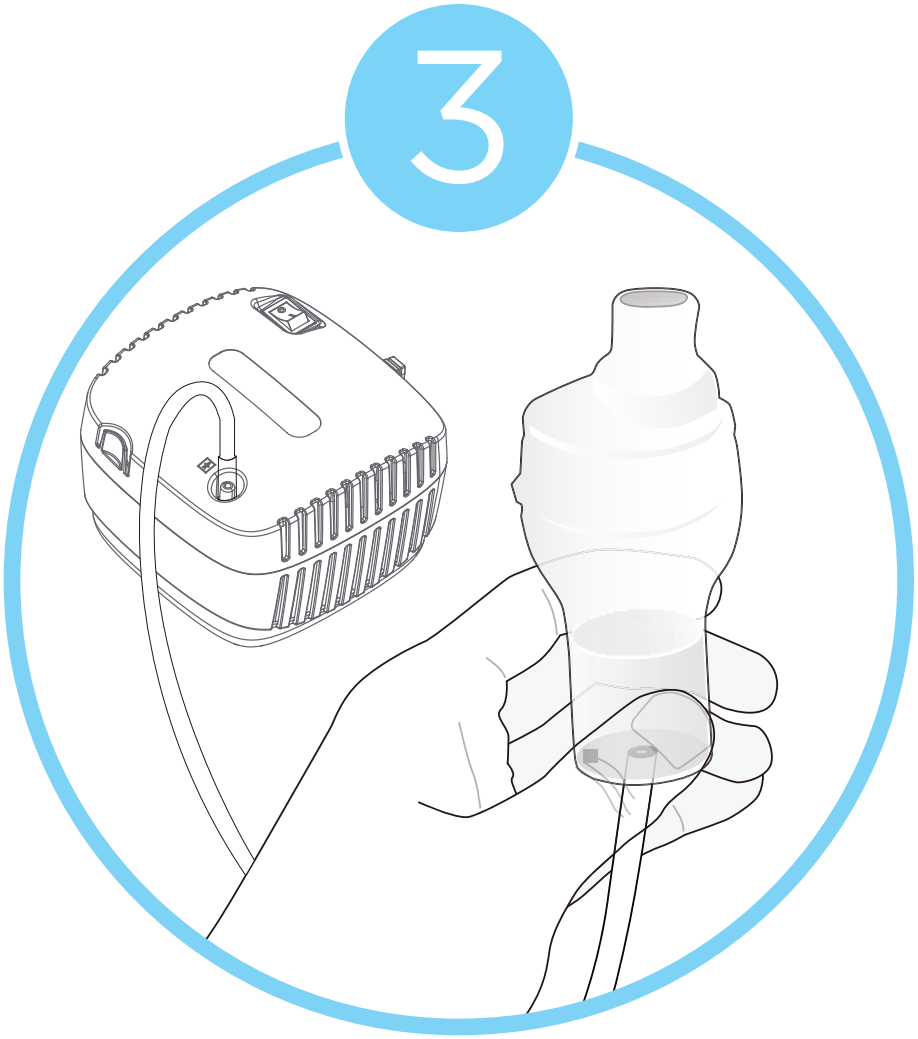

## Compressor Nebuliser

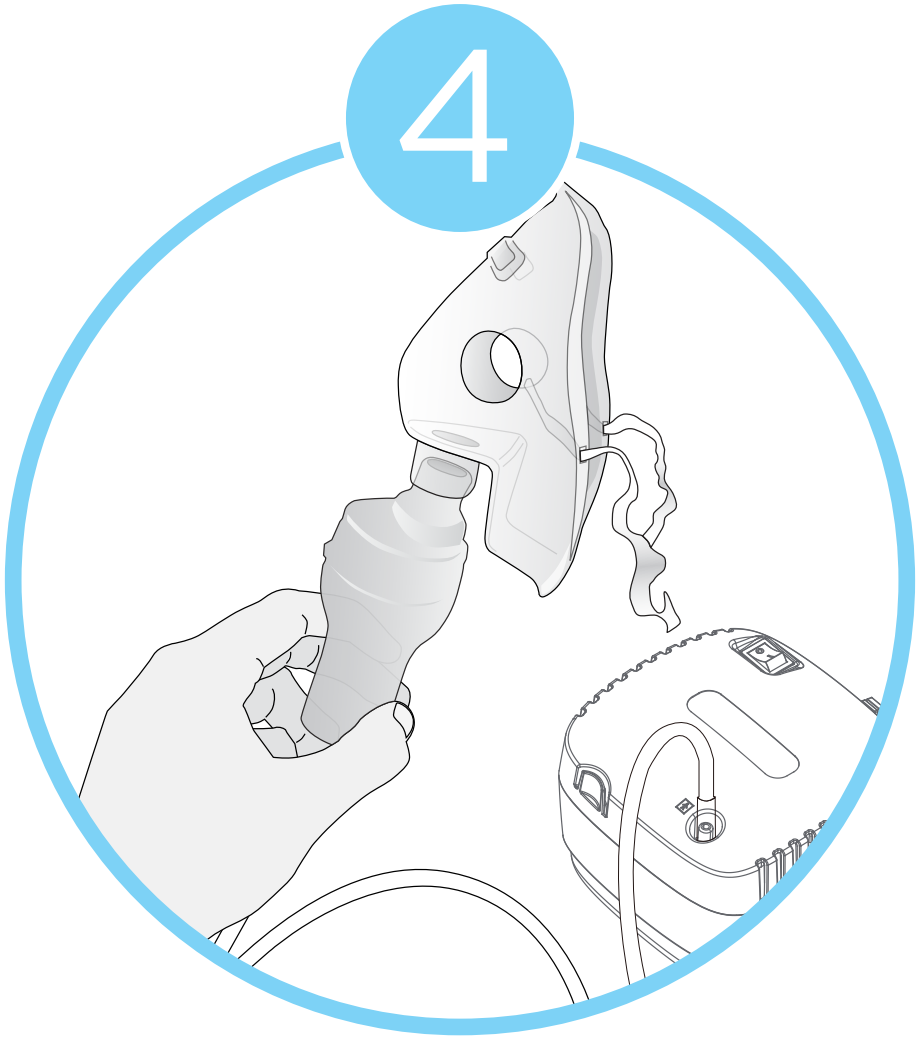

Wash hands with soap and water. Dry with towel or tissue.

Assemble nebulizer, ensuring to plug in and insert the air tube into machine.

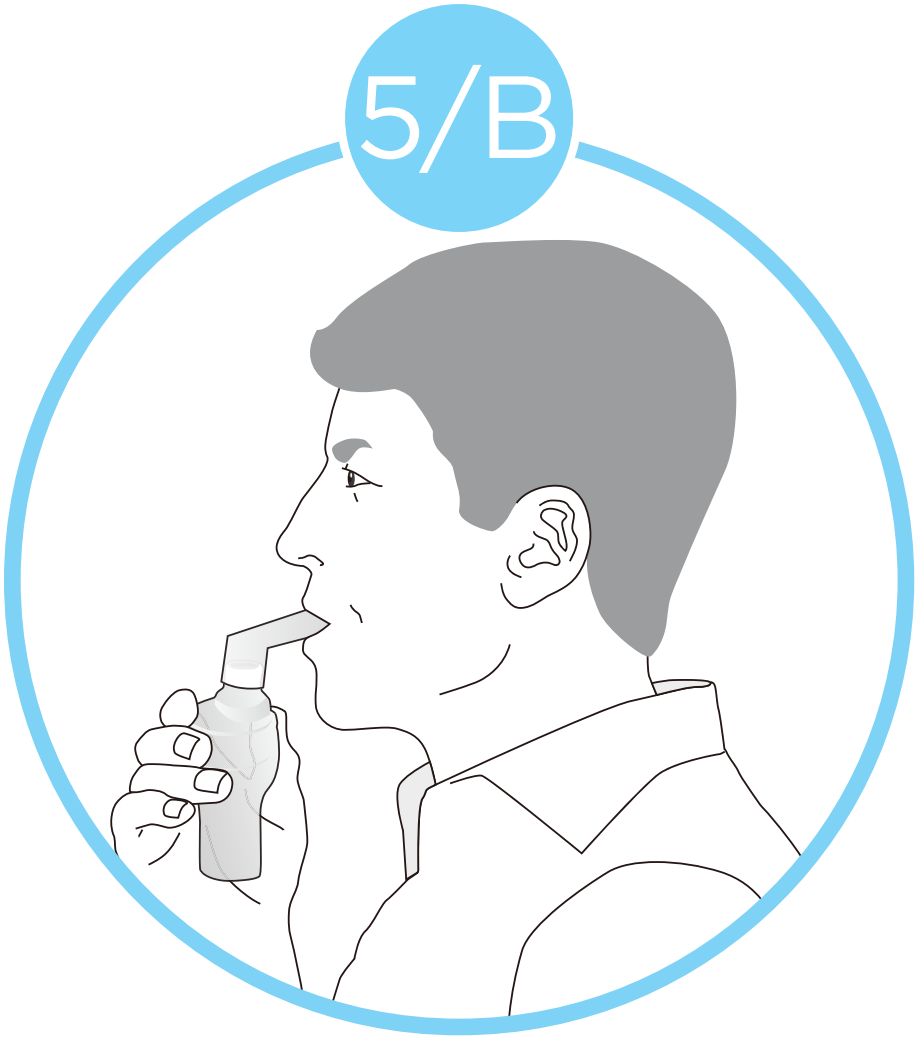

Fill medicine cup with prescribed medication, and attach tube to medicine cup.

Attach tube
and
mask/mouthpiece
to medicine cup.

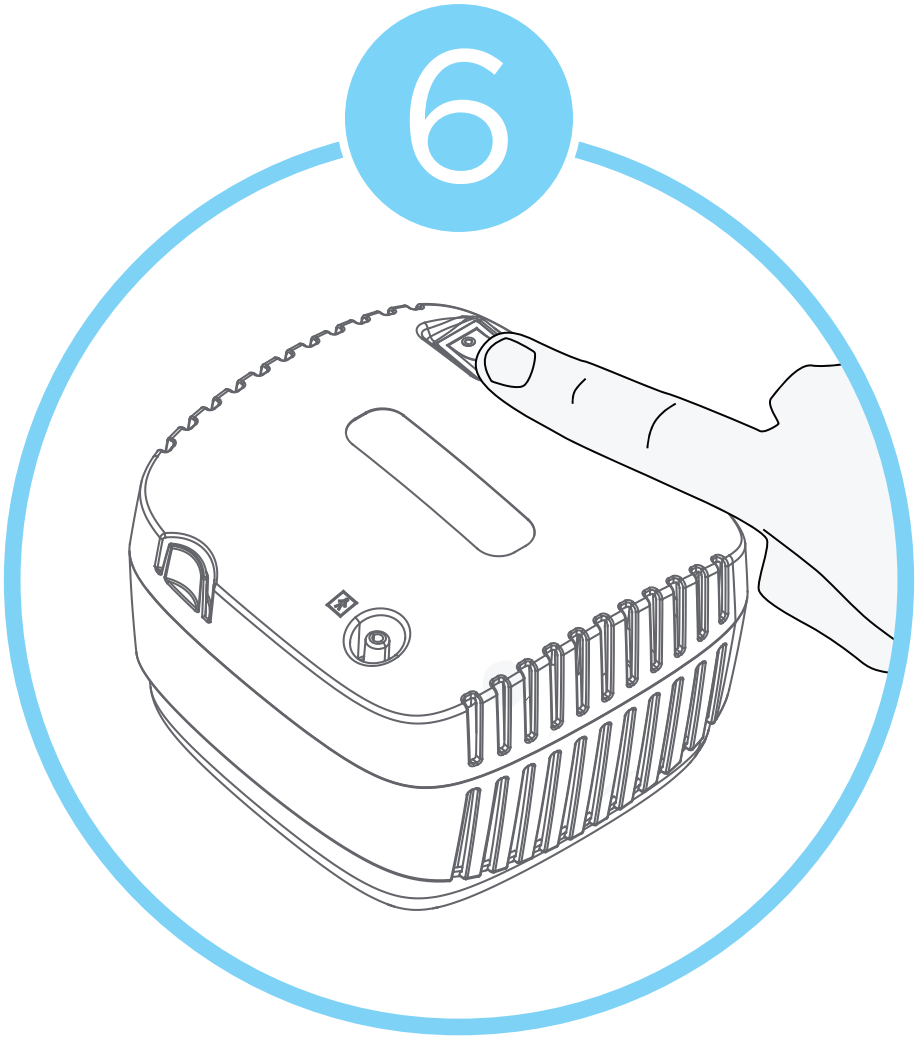

If using mask - place mask tightly over the mouth and nose.

If using mouthpiece - place the mouthpiece between the teeth and close lips around it.

6

Press ON/OFF
to start treatment.
Inhale medication
slowly and deeply until
nebulizer cup is empty.
